The DiSTI Corporation Welcomes GlobalLogic as New Value Added Reseller for GL Studio®

GlobalLogic signs a Software Value-Added Reseller agreement to resell The DiSTI Corporation's GL Studio as an integrated Human Machine Interface (HMI) tool.

Orlando, FL (January 19, 2021) – The DiSTI Corporation, the company behind the world's leading HMI software tool, GL Studio®, is pleased to introduce embedded implementation experts GlobalLogic, as the latest member of DiSTI's Value Added Reseller program. This relationship will enable GlobalLogic to continue helping brands to create value across the entire product lifecycle by leveraging GL Studio's 21-year history in commercial HMI tool expertise.

“Automotive HMI systems are such critical element in the overall user experience,” said Arvind Murthy, SVP & GM Automotive Business Unit, GlobalLogic. “We are thrilled to be joining DiSTI's Value Added Reseller Program to bring the best of Automotive UI solutions to our valued clients.”

-MORE-

Headquartered in California, GlobalLogic is committed to enabling businesses to innovate within predictable budgets while bringing the next generation of digital products and services to market in the shortest possible time. As the need for proven HMI software tools with safety-critical capabilities grows, especially within the Automotive and Aerospace markets, GlobalLogic wanted to find a solution that would continue its commitment to providing cutting-edge technology to its customers.

For over 20 years, The DiSTI Corporation's GL Studio has been a pioneer in developing graphical user interface software. As a UI design leader in the software industry, DiSTI helped set the technological standards for creating high-quality user interfaces. Customers around the world rely on GL Studio's suite of products to deploy HMIs for their products. Including critical systems in avionics, automotive, transportation, and medical, to maintain their capabilities and have a competitive advantage in the market.

"We are very excited and honored to be working closely with such a prestigious company as GlobalLogic," said Christopher Giordano, VP of UI/UX Technology at DiSTI. "Their expertise in large scale implementation matched with our expertise in commercial HMI tools and processes is a huge win for our mutual customers. We are very much looking forward to a long and mutually beneficial relationship with GlobalLogic in the embedded devices market."

The DiSTI Corporation Value Added Reseller program empowers partners by providing personalized support and a direct line to engineering. DiSTI's commitment to superior customer service means that partners can depend on a rapid response for everything from consultation assistance to issue resolution to help close deals and exceed customer expectations.

The DiSTI Corporation

The DiSTI Corporation is the world's leading provider of virtual training solutions and graphical user interface software.

Our flagship product, GL Studio, delivers advanced high-performance 3D user interfaces to the aerospace, automotive, medical, and training industries. Leading global manufacturers such as Jaguar Land Rover, Hyundai MOBIS, Garmin, Boeing, and Lockheed Martin choose GL Studio for its performance, fidelity, and reliability in interface development and deployment. Whether for avionics, instrument clusters,

infotainment systems, medical devices, or flight simulators, GL Studio exceeds the developer's interface demands.

GlobalLogic

GlobalLogic (www.globallogic.com) is a leader in digital product engineering. We help our clients design and build innovative products, platforms, and digital experiences for the modern world. By integrating strategic design, complex engineering, and vertical industry expertise—we help our clients imagine what's possible and accelerate their transition into tomorrow's digital businesses. Headquartered in Silicon Valley, GlobalLogic operates design studios and engineering centers around the world, extending our deep expertise to customers in the communications, financial services, automotive, healthcare, technology, media and entertainment, manufacturing, and semiconductor industries.
